### InfraCal Field Sampling Kits For use with InfraCal TOG/TPH Analyzers

---

#### Part Number 403-1010 InfraCal Field Sampling Kit For TOG in Water

**Contents:**

100ml Graduated Cylinder  
25ml Graduated Cylinder  
125ml Wash Bottle  
20ml Beaker  
100 $\mu$ l Syringe  
Disposable Pipettes (pkg. 75)  
Glass Funnel  
177ml Graduated Bottles, case 48

#### Part Number 403-1011 InfraCal Field Sampling Kit For TOG in Soil

**Contents:**

100ml Graduated Cylinder  
25ml Graduated Cylinder  
125ml Wash Bottle  
20ml Beaker  
100 $\mu$ l Syringe  
Disposable Pipettes (pkg. 75)  
Glass Funnel  
40ml Vials, Box 72  
Pocket Balance  
Sample Spatula  
Sodium Sulfate, 500g  
60ml Syringe Cartridge & Plunger, 100

#### Part Number 403-1012 InfraCal Field Sampling TPH Accessory Kit

**Contents:**

Silica Gel, 500g  
Filter Paper, box 100

**Note:** This kit must be purchased in conjunction with part number 403-1010 and/or 403-1011 for TPH Analysis.

---

InfraCal Field Sampling Kits have been specifically designed for use with the InfraCal TOG/TPH Analyzers. Select the kit(s) best suited for your sampling requirements based on your application.

**Note:** You will also need 15% hydrochloric acid for pH adjustment, in addition to the solvent (Freon-113, a spectroscopic hydrocarbon-free grade of perchloroethylene, S-316, hexane, pentane or Vertrel MCA) which are not included in the kits.
